QUARTERLY COMPLIANCE AND ENFORCEMENT SUMMARY

January 1, 2009 to March 31, 2009

The 1st Quarterly Compliance and Enforcement Summary for 2009 outlines 3 Orders, 47 Administrative Sanctions, 320 Tickets and 11 Court Convictions for a combined total of $97,847 in fines.

Notable highlights this Quarter:

Worthington Mackenzie Inc. was issued an emergency environmental order to prevent, lessen or control any potential hazard at the pulp mill site. The spill prevention order required the mill's owners to maintain the site in "warm shutdown mode" during the winter to minimize the potential for freezing and possible rupturing of pipes, tanks and other equipment. Failure to properly maintain the boiler temperatures at the mill would likely cause the leakage or escape of poisonous and/or dangerous substances, including chlorine dioxide and caustic soda.

Raymond Robinson was convicted under the *Wildlife Act* for illegally setting a conibear trap in a residential neighbourhood near Victoria resulting in the accidental death of a family pet. The court ordered him to pay a fine of $500 plus $3,200 in restitution to cover the associated veterinarian bills.

Orders

BRITISH COLUMBIA The Best Place on Earth | Ministry of Environment

ISSUED TO	LOCATION	ACT	REG.	SECTION	DESCRIPTION
Gracia Financial Corporation	River Road, Delta	*Environmental Management Act*		77	An Information Order was issued to the property owners in response to reports of waste being deposited without authorization. The property owners were ordered to submit to the ministry a report prepared by a qualified professional that includes: (1) a determination of the specific materials (type and composition), quantity and location of waste indicated on a map; (2) identification of all waste substances that have been introduced, specifically whether lechate is present, and if so; (3) identify the source on a map, estimate the quantity generated and path of discharge to the environment.
Worthington Mackenzie Inc.	Mackenzie	*Environmental Management Act*		79(2)	A Spill Prevention Order was issued to ensure that the mill would be maintained in a "warm shutdown" mode to prevent the spill or escape of chemicals. The order required that the company: (1) maintain heat to key areas of the mill where chemicals are contained; (2) maintain electricity supply to the mill to ensure pumps, monitoring equipment and other critical devices remain operational; (3) maintain a sufficient number of trained staff onsite at all times to ensure security, monitoring and equipment operation; and (4) submit a comprehensive chemical spill prevention plan to ministry staff.
Worthington Mackenzie Inc.	Mackenzie	*Environmental Management Act*		87(3)	The Environment Minister issued an Emergency Declaration at the pulp mill to ensure that the site would be appropriately staffed to continue the maintenance of the mill and to meet the conditions set out in the above Spill Prevention Order. These actions were taken to prevent, lessen and/or control a potential release of contaminants to the environment and to protect human health and safety.

Administrative Sanctions

Angling, hunting or firearm licence cancellations against individuals

(s.24 Wildlife Act)
